Subject: Canyon Springs

Dear Denyelle,

I am sure you have received and read a significant number of comments on the above referenced subject. I won't reiterate but rather just ask that you count me in as a concerned citizen that respectfully request that all inadequacies which have already been brought to light regarding the DEIR be addressed to the satisfaction of the Planning Department, the residents of Glenshire and all the citizens of Truckee. To do less would be a disservice to our beautiful habitat, all its creatures, including humans, and it is simply the right thing do. I can say that as an avid biker I frequently encounter deer when descending Glenshire Rd towards I-80. In fact local residents put up signs warning of a fawn crossing. While I respect the rights of private developers I respect the right of flora, fauna, and wildlife even more, they have no voice. Truckee is such a pristine environment it should be vigorously protected at all cost not just for those of us currently living here but for future generations. Given the lack of support by buyers for Elkhorn Ridge, Sierra Bluffs, Donner Crest, Old Greenwood and Grays Crossing do we really need another development which is largely uninhabited by people or wildlife.

Thank you for your consideration and your stewardship of our town and its environment.

Sincerely,

Joseph P Smith
